Installation of Cabri 3D v2

You should open the User License file (Licenses folder) and read it before installing Cabri® 3D v2. By installing or using Cabri 3D v2 you agree to be bound by the terms of this license.

Copy the Cabri 3D v2 program icon to the Applications folder on the hard drive of your Macintosh. Launch the software by double-clicking on the Cabri 3D v2 icon.

You may also drop on your hard drive the Examples folder, the Tutorials folder and/or the documentation of your choice: Manuals and Licenses.

The whole CABRILOG team wishes you many exciting hours of construction, exploration and discovery.
